The Workbook closely matches the Student's Book layout. Listening tracks available to download from the insight Student's site. Literature insight offers additional lesson material to introduce students to classic pieces of English literature. The Grammar Reference sections provide extra support and practice of the grammar from the Student's Book. A unit-by-unit wordlist with dictionary style definitions gives students more information about core vocabulary. The Online Practice option allows you to assign homework to be done online, and track your students' progress. Over 200 activities for students to practise vocabulary, grammar and skills, with new audio for the listening tasks. Speak and record practice and writing tasks that students submit to teacher give more opportunities to practise these important skills away from the classroom. Video, audio, wordlists, language bank and grammar references are all integrated with the activities so everything is easily accessible and in one place. Instant feedback on answers and unlimited attempts on activities encourages autonomous learning. The access code for Online Practice is on a card provided with the Workbook.
